| A. | Welcome   | A. Varghese   |
| B. | Chairman's Remarks  | A. Varghese   |
| C. | Review of DTSC Standards Expiration and PAR's                               | A. Varghese   |
| D. | Membership Update   | P. Patel      |
| E. | Headcount (for quorum determination)  | P. Patel      |
| F. | Approval of Previous Meeting Minutes  | P. Patel      |
| G. | Approval of Agenda  | A. Varghese   |
| H. | Working Group (WG) and Task Force (TF) Reports                              |               |
|    | 1. TF External Dielectric Clearances  | E. Davis      |
|    | 2. TF Revision of Impulse Tests   | P. Riffon     |
|    | 3. TF Revision of Low Frequency Tests                                       | B. Griesacker |
|    | 4. WG Detection of and Location of Acoustic Emissions C57.127               | D. Gross      |
|    | 5. WG PD in bushings, PTs and CTs – PC57.160                                | T. Hochanh    |
|    | 6. TF Winding Insulation PF & Winding Insulation Resistance Limits          | D. Robalino   |
|    | 7. WG Revision of C57.113 Recommended Practice for PD measurement           | A. Naderian   |
|    | 8. WG on Developing Low Frequency Test Guide                                | D. Sauer      |
|    | 9. WG Revision of C57.98 Impulse Test Guide                                 | T. Hochanh    |
|    | 10. TF Update - System Transients and Transformer Interactions Mitigation   | J. McBride    |
| I. | Liaison Reports - Voltage Test Techniques (HVTT), IEEE Standard 4           | J. Britton    |
| J. | Old/ Unfinished Business  | A. Varghese   |
|    | • C57.13-2016 Sec 11.3.1.7: Impulse wave superimposing waveform requirement |               |
|    | • PD Testing on Wound Core Transformer related to gassing concern           |               |
| K. | New Business  | A. Varghese   |
|    | • Oversight TF on Entity WG C57.12.200                                      |               |
| L. | Adjournment   |               |
