

**Power Transformer Subcommittee
Task force / Working Group Report**

Document #: WG TC Application Guide IEC 60214-2

Document Title:

Tap-Changers

Chair: Craig A. Colopy Vice-Chair Axel Kraemer

Secretary _____

Current Draft Being Worked On: NA Dated: NA

Meeting Date: 22 March 2015 Time: 15:15 to 16:30

Attendance:	Members	<u>17</u>
	Guests	<u>26</u>
	Guests Requesting Membership	<u>7</u>
	Total	<u>50</u>

Meeting Minutes / Significant Issues / Comments:

1. Meeting was called to order at 3:15 pm, March 22, 2016.
2. Chairman provided the WG a background relating to the work being done to adopt the IEC standard 60214-1 as a dual logo document preserving main technical differences between C57.131 and 60214-1 in an Annex. Annex E of C57.131 is included within the latest draft of 60214-2, Tap Changer Application Guide.
3. Minutes from the seventh work session in Venice, February 25th and 26th, along with key changes in latest draft were presented by Axel Kramer.
4. A presentation on “DRM Diagnostic Test Technique for OLTCs” was made by Raka Levi and Marcos Ferreira. It was suggested this presentation be one discussion from a tutorial on OLTC Diagnostic Techniques to be provided by a panel for a future IEEE Transformer Committee meeting group.
5. User ID and Password will be provided once more for a link under the Power Transformer SC for access to drafts, minutes and supporting documentation.
6. Future Work Sessions:
 - a. Nashville, Tennessee, June 6 – 7 2016, Hosted by Dave Geibel, ABB
 - b. Dresden, Germany September 5 – 6 2016 hosted by Axel Kraemer, Reinhausen
 - c. Vancouver, BC Canada, Oct. 27 – 28 2016, IEEE Transformer Committee meeting
7. Meeting closed at 4:30 pm, Mar 22.
